

REMARKS

Claims 1-10 are all the claims pending in the application. As a preliminary matter, Applicant notes that the Office Action dated July 5, 2005 appears to have entered the amendment filed on May 6, 2005, but finds the newly pending claims to be drawn to a subcombination invention not previously examined. Accordingly, the present amendment is being made to the claims as filed on May 6, 2005.

Claim 1 has been amended to restate the claimed invention as a body in combination with a door closing mechanism, as was the original focus of the claims. The additional limitations made to the claim in the amendment filed on May 6, 2005 remain and are a basis for patentability for the reasons given in the amendment. Applicant respectfully submits that these claims now conform to the subject matter originally searched and examined, and that this response fully complies with the requirements by the Examiner in the Supplemental Office Action dated July 5, 2005.

New claims 11-20 are added and are directed to the door closing mechanism alone. Applicants are adding these claims drawn to the subcombination, but expect that the Examiner will withdraw them from consideration in connection with any further action on this case. The Examiner is requested to call the undersigned if the claims 1-10 are otherwise allowable.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

Amendment under 37 C.F.R. § 1.111
